Use Cool Rugs for Summer

A lot of people are beginning to realize that you can have a better vacation at home than away.

Instead of moving out of town and putting up with a lot of discomforts at a summer resort in order to get a change they are simply altering the complexion of their homes and spending part of the money they usually put on a trip in making their homes delightfully attractive for summer use.

You will find rugs a surprisingly important factor in making this change in your home. In winter your rugs are dark and warm looking. They are just as dark and warm-looking in the summer. Take up your winter rugs and put down rugs in cool blues, tans and greens of summer fabric.

You will be delighted with the change. You won't want to go away for that vacation this year.

See the splendid line of "Crex" Fibre, Melrose and Burma Rugs than we are showing in all sizes.

Sleep Out Doors

You who do not know the joys of out-door sleeping have never really slept.

Buoyant, irresistible good health is in the soft ozone of the summer night air.

Live out doors as much as you can in summer.

A cot with comfortable springs—one that is easy to move about—one that folds up out of the way in the daytime—a cot that is "weather-proof" is all that you need. Such a great summer comfort costs little.

Try it. You will find a new happiness in summer living. An all steel collapsible cot for \$2.50.
